

Hi, I'm Salvatore

and I'm a front end developer.

My name is Salvatore D'Agostino

I am improving my skills thanks to the
start2impact courses

My Educational Background

I graduated from high school and I'm studying computer engineering at the "Luigi Vanvitelli" university

My Personal Skills

I always want to learn more and I am a good team player.

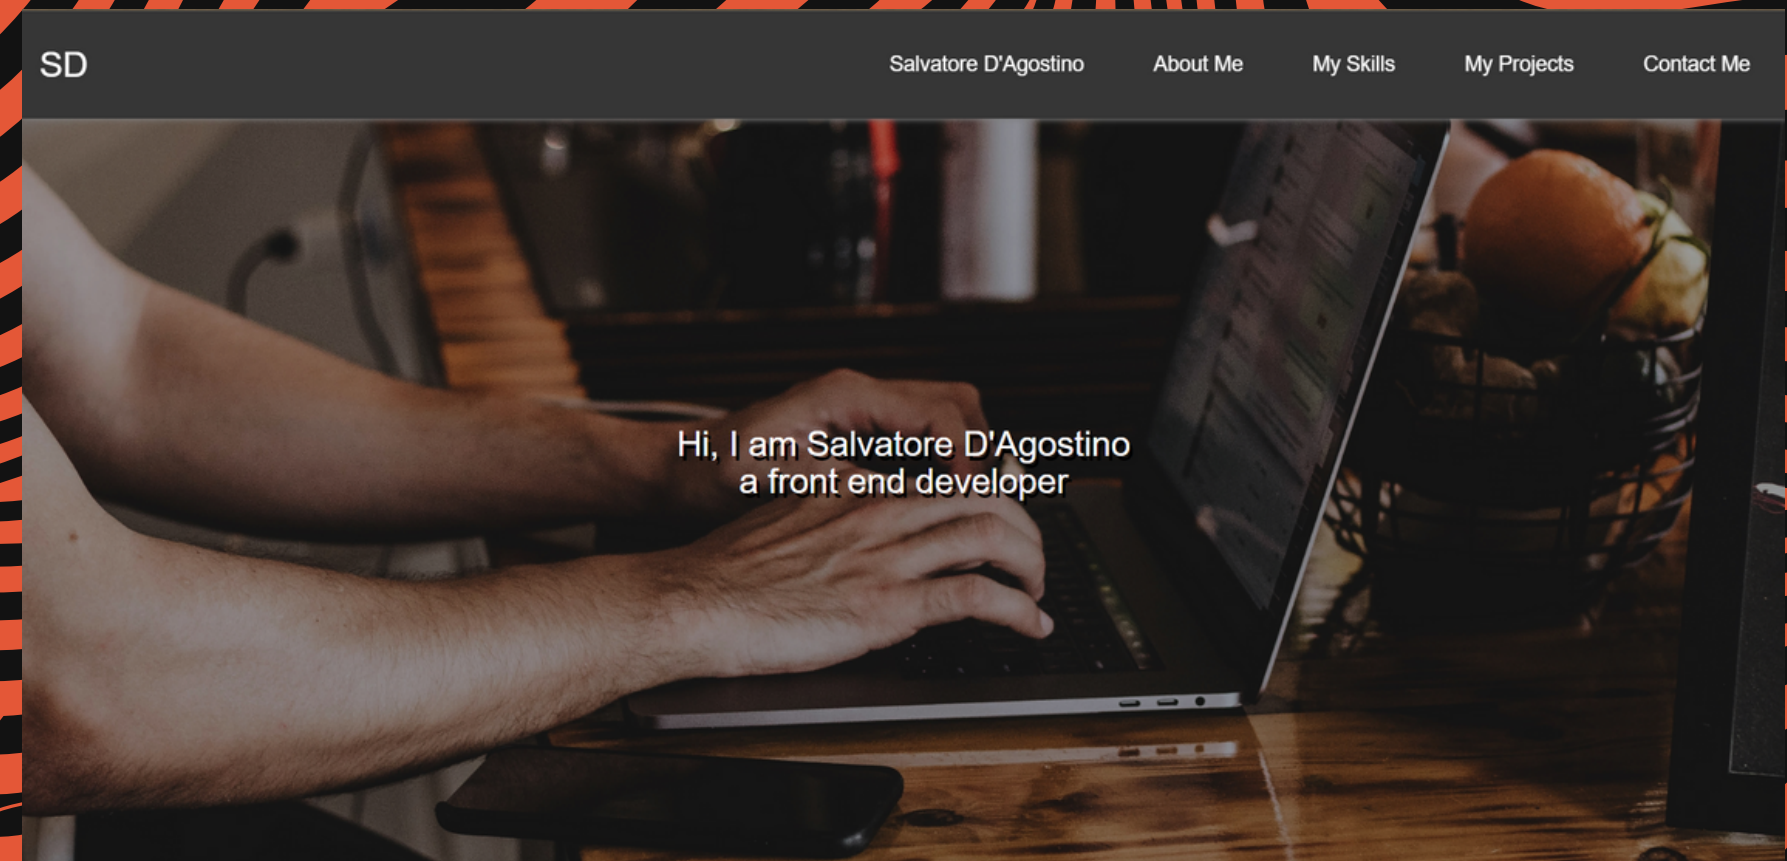

My Portfolio

This is my **first project**.

I used Html and Css to create my personal portfolio

I used various shades of gray and black to give the site a touch of **elegance**.

This is just my first project, but **many more are coming**.
